ELAZEN SPA & WELLNESS

In addition to the striking and unique phyto-cosmetics from the Italian tailor-made brand VAGHEGGI, which has a 50-year history based on the principles of "Respect and Love for Nature," we offer skin and body treatments from the French brand Thalgo. Known for its innovative marine-based products, Thalgo treatments are among the most preferred spa rituals. Both Vagheggi and Thalgo laboratories provide ideal cosmetic treatments that support the restoration of the skin's natural rhythm, strengthen the skin barrier, enhance overall health, and combat aging. These treatments stimulate youth proteins with valuable active ingredients, giving the skin a dense, fresh, youthful, and tight appearance while revitalizing facial features. They also create protocols and innovative formulas tailored to each skin type.

At ELA-ZEN SPA, we prioritize environmentally friendly products in all our cosmetics. Our offerings include cosmetics produced using innovative, high-tech methods based on recipes that leave no carbon footprint, protect traditional harvesting and production processes, and are manufactured with environmental sensitivity. These products contain rich natural active ingredients sourced from medicinal stones and aromatic plants.

TRADITIONAL TURKISH BATH

The Turkish Hammam culture, which has existed since ancient times, aims to refresh the body and soul, revitalize the body, and experience the feeling of renewal. Healing water purification treatments, which are fed with the traditional Turkish bath culture that relieves your physical and mental fatigue and calms yourself, are one of the most preferred rituals. In the application, which takes place in the relaxing environment of the authentic hammam, our hammam ritual ends with the Water Salutation Ceremony on your skin prepared for purification with the gentle heat of steam and stone, followed by the application of a purifying scrub and the touch of silky foam. Our hammam ritual ends with implementing a scrub and a touch of silky foam.

MASSAGES

Extracts of medicinal plants, holistic natural aromas, and oil mixtures combine with healing massages and rituals to offer a unique experience of harmony. Various massage techniques, blended with the ancient wisdom of both the East and the West, will bring you physical and spiritual peace, making your tiredness disappear.

Our carefully curated massage collection offers a rich variety, from the Classical Swedish Massage developed by Swedish doctor Per Henrik Ling in 1812 to relaxing Akdeniz Aromatherapy. You can also experience authentic Far Eastern and holistic Indian Ayurvedic rituals, as well as healing remedial therapies. The touches applied to your entire body stimulate your nervous system, regulate blood and lymph circulation, and provide mental relaxation while helping you detoxify.

AYURVEDIC HOLISTIC RITUALS

Ayurveda, meaning "Science of Life" in Sanskrit, is a 5,000-year-old natural healing system rooted in the Vedic culture of India. It is a body of wisdom that helps individuals maintain balance and fitness in all aspects of life while realizing their full potential. Ayurveda views human beings as a whole, interconnected with nature, and establishes its healing practices accordingly. One of the fundamental components of this treatment system is Ayurvedic massage. Ayurvedic healing rituals treat the body and mind as a unified whole. In this massage application, essential life energy is transferred to the body's systems, allowing for repair, refreshment, and renewal. This process calms the mind, cleanses negative energy accumulated in the body, relieves muscle tension, strengthens the body, prevents premature aging, and minimizes the appearance of wrinkles.

HAIRDRESSING SALON CARE

Our salon offers exclusive brands along with barber services, hair design, hair coloring, keratin treatments, hand and foot care, nail design, and trendy braiding and hairstyles for young people and children.
